Dr. Marcos Barreto

MT2021 – 2022

WEEK 01 – ACTIVITY 2.2

You can [download the sample database here](#) if you want to *do this activity in your local computer* using the *SQLite shell* **OR** you can use [this Web interface](#) for accessing the SQLite's sample database.

Write SQL commands for the following questions:

1. Print all track names in the playlist "Heavy Metal Classic". Additionally, you can test with other playlists (e.g. Grunge, Brazilian Music).
2. Find the invoice with the highest total value and print its invoice items.
3. Find the three customers who bought most items and print their details.
4. Which tracks are by Amy Winehouse?
